

"Imagine Possibilities"

El Centro College

Biotechnology

El Centro College offers the Biotechnology program as both a 27 credit hour Level I Certificate and a 68 credit hour Associate Degree in Applied Sciences.

The Certificate curriculum provides a student with the foundation of biotechnology that involves basic chemical, biological, and microbiological courses. The Certificate program includes a research project and prepares the individual for an entry-level position in the emerging field of biotechnology.

The Associate Degree curriculum advances beyond the scope of an introduction to the field with courses in immunology, genetics, biotechnology instrumentation, molecular biology, cell cultures, statistical analysis, laboratory management, and research. The Associate Degree program includes a research project and prepares the graduate for entry-level positions in biotechnology, biological research, and industrial laboratories.

Although this information packet is specific to the Associate Degree in Biotechnology program, the certificate curriculum outline is included. For more information regarding application to the certificate program, please attend the Medical Laboratory Technology/Biotechnology information session.

This information packet contains specific application guidelines and requirements. By submitting an application packet, an individual verifies that they have 1) read the packet thoroughly, 2) obtained all necessary documents from designated website addresses, and 3) understood the policies and procedures for application and acceptance to the program.

EQUAL EDUCATIONAL OPPORTUNITY

Educational opportunities are offered by the Dallas County Community College District without regard to race, color, age, national origin, religion, sex, disability, or sexual orientation.

APPLICATION REQUIREMENTS TO THE BIOTECHNOLOGY PROGRAM (Associate Degree)

Application to the Biotechnology Program requires the following steps:

- Application and current admission to a Dallas County Community College District (DCCCD) college.
- Attendance at a Biotechnology/Medical Laboratory Technology program information session.
- Completion of the prerequisite courses with a minimum cumulative grade point average of 2.5 or higher on those specific courses and a minimum grade of "C" or higher on each.
- Submission of a complete application packet to the Health Occupations Admissions Office during a designated filing period.

A. General Admission Requirements to the College

Applicants to the Biotechnology Program must meet college admission requirements in the Dallas County Community College District as outlined in the official college catalog at <http://www.ElCentroCollege.edu>. Applicants must have earned either a high school diploma or General Education Diploma (GED) in addition to complying with Texas Success Initiative (TSI) requirements before they will be eligible to apply to the program. Students should consult the college counseling office to determine their TSI status prior to application to a Health Occupations program.

- Revised 09/01/09 -

Initial Advisement

Students who are beginning college for the first time or who need assistance with placement testing, TSI issues, and/or registration for prerequisite courses must visit with an academic advisor in the College Counseling Center as their first step toward future application to a health occupations program. The student who has not completed college coursework should request a general Associate Degree plan from the Counseling Center as a starting point toward application to a health occupations program.

B. *Program Information Sessions*

Potential applicants are required to attend a Biotechnology/Medical Laboratory Technology program information session where these programs, application procedures, and acceptance policies are discussed in detail. Information sessions are held monthly at the El Centro campus; no reservation is necessary to attend. The Information Session schedule for the current semester is available online at <http://www.elcentrocollege.edu/Programs/HealthLegalStudies/InfoSess.asp>, in the El Centro College Health Occupations Admissions Office (Room P-101) at the Paramount Building (301 North Market), and on our information line at 214-860-2272, menu item 3.

C. *Prerequisite Courses*

Applicants must have completed the following two (2) prerequisite courses with a minimum grade of “C” or higher on each and a cumulative grade point average of 2.5 or higher:

<u>PREREQUISITE COURSES</u>			<u>Credit Hrs</u>
ENGL	1301	Composition I	3
PSYC	2301	Introduction to Psychology	<u>3</u>
			6

NOTE: Applicants who have not yet completed MATH 1314 – College Algebra must be eligible to take the course during the second semester of the Associate Degree curriculum. Eligibility to enroll in MATH 1314 is determined via placement testing to meet a minimum score or by completion of developmental coursework. Applicants should consult an academic advisor for more information on eligibility to enroll in MATH 1314.

D. *Evaluation of Previous Coursework*

To insure the transferability of previous coursework completed at colleges and universities other than Dallas County Community College District campuses, potential applicants to health occupations programs should have their coursework evaluated by the Health Occupations Admissions Office three to six months prior to the application deadline for their program of choice. **This procedure is especially important for students with coursework from colleges and universities outside the state of Texas.**

Transcripts and accompanying course descriptions will first be evaluated by the Health Occupations Admissions Office and, if necessary, be reviewed by respective college faculty for that course discipline. When all courses have been reviewed, an Educational Plan will be prepared for the student. The Educational Plan is accepted as a preliminary “degree plan” for student advisement, financial aid, and VA benefit purposes.

These evaluations are usually completed within 10-14 working days. **During peak times such as registration or after the close of the semester when faculty are unavailable, an evaluation may take as long as 30 days for review. Therefore, it is to the applicant’s advantage to request the Educational Plan at their earliest convenience prior to application to the program. The El Centro College Health**

Occupations Admissions Office and the Health/Legal and Continuing/Workforce Education Division reserves the right to accept or reject any coursework completed outside the DCCCD presented for transfer evaluation toward Health Occupations programs.

For more information on requesting evaluation of your previous coursework and the Educational Plan, download the guidelines and Request for Educational Plan form at the following link: <http://www.ElCentroCollege.edu/HealthOccAdmissions>.

Five-Year Time Limit on Science coursework

All science coursework (biology, chemistry, microbiology, etc.) must have been completed less than five years prior to application to a Health Occupations program. If an individual has **current** experience utilizing their related science knowledge or has completed **advanced courses** in a related science area, the student may petition for a waiver of the time limit through the Health Occupations Admissions Office as a separate review or in conjunction with an educational plan request.

NOTE: In order for a science course taken outside the DCCCD to be considered for a five-year time limit waiver, the course must first be approved for transferability. Information on the five-year time limit waiver is included with the **Request for Educational Plan** guidelines at the following link: <http://www.ElCentroCollege.edu/HealthOccAdmissions>.

Coursework from Foreign Universities

Only courses such as college algebra, chemistry, biology, and microbiology may be considered for transfer to Health Occupations programs from colleges or universities outside the United States. No other courses will be considered. Science courses must be within the five-year time limit.

For more information regarding the evaluation of foreign coursework for transfer credit, see the following link: <http://www.ElCentroCollege.edu/HealthOccAdmissions>.

Credit by Examination, CLEP, and Advanced Placement Credit

Credit through CLEP, High School Advanced Placement Exams and Credit by Examination may be awarded for a limited number of courses toward Health Occupations programs.

Advanced Placement (“AP”) credit for ENGL 1301 and MATH 1314 is acceptable if the credit appears on a college transcript as ENGL 1301 and MATH 1314 equivalency. A letter grade is not awarded for “AP” credit.

NOTE: An applicant to the Biotechnology program may present credit by exam, CLEP, or “AP” credit for only one of the five prerequisite courses and one support course. Credit will be acknowledged but not calculated with the grade point average.

Detailed information regarding Advanced Placement, CLEP, and Credit by Examination can be found at <http://www.ElCentroCollege.edu/HealthOccAdmissions>.

Support Courses

Students are encouraged to complete the general education support courses included in the Biotechnology curriculum (BIOL 1460, BIOL 2416, BIOL 2420, CHEM 1411, CHEM 1412, SPCH 1311, COSC 1300, MATH 1314/1414 and the humanities elective) prior to entrance into the Biotechnology program, particularly if the student plans to work while enrolled or has significant family responsibilities.

Double Major in Biotechnology and Medical Laboratory Technology

The similar nature of the Biotechnology and Medical Laboratory Technology programs allows a student to pursue both degrees in those two Health Occupations programs. A student who is interested in earning both degrees should complete the Medical Laboratory Technology Core Curriculum and follow the guidelines for application to the Medical Laboratory Technology program, including a Biotechnology program application form with their application materials. Please see the Medical Laboratory Technology program information packet for the specific coursework required to apply for admission to that program.

E. Application Packet Submission

Read the following instructions carefully. Applicants must submit complete application materials to the El Centro College Health Occupations Admissions Office either in person or by mail on or before the application filing deadline. **Incomplete packets will not be considered in the selection process and will be returned to the applicant.**

The Biotechnology program application packet must include the following items to be considered complete and valid:

1. A completed **Biotechnology Program Application form** and the signed **Statement of Student's Responsibility form** (obtained only at the program information session).
2. **One official transcript from every college previously attended** other than DCCCD colleges. (Dallas County Community College District transcripts, continuing education transcripts, and transcripts from outside the U.S. are not required.) **NOTE: The print date of a transcript must be less than three years old at the time of program application.**
 - **Separate official transcripts are required from each college attended** although that coursework may be printed on another transcript as transferred coursework.
 - *Students must submit a complete set of official transcripts to the Health Occupations Admissions Office with the Biotechnology application packet materials.*

IMPORTANT NOTE: Another complete set of official transcripts should also be submitted to the El Centro College Registrar's Office if not submitted previously to another DCCCD campus.

- **Transcript photocopies issued to the student or issued by a registrar's office are not acceptable as official transcripts.** Grade printouts such as WebAdvisor, advising reports, e-mails from instructors, and other such documents are not accepted as official transcripts.
- If a college will not release an official transcript to a student and must mail it directly to El Centro, **the student must request that the transcript be mailed to the Health Occupations Admissions Office.** Documentation verifying the date the student requested the transcript (such as a copy of a transcript order form) must be included with the rest of their application packet materials.

The applicant is wholly responsible for ensuring that transcripts which are to be sent directly to the Health Occupations Admissions Office are received before an application filing deadline.

- If a student is enrolled in support courses toward the Biotechnology curriculum which can be completed before the next application filing deadline, the student should not submit their application packet until the course is completed. Once a complete and valid application packet is submitted during a filing period, additional materials including updated transcripts cannot be added to the packet for that filing period.
3. A **catalog course description** for each course taken outside the Dallas County Community College District which applies to the Biotechnology curriculum (prerequisite courses and/or general studies courses) and for which the student seeks transfer credit.

Course descriptions may be photocopies or printouts from online catalogs. The course numbers on catalog course descriptions must match those on the transcript. Course descriptions should be marked on the photocopy. **Do not mark or highlight courses on official transcripts.** Course descriptions are not required for courses completed at a DCCCD campus.

4. If applicable, a photocopy of the applicant's GED certificate.

F. Application Filing Period

There are two application filing periods for the Biotechnology Program. The official filing period for each fall semester class is:

January 1 – May 31

Notification letters are mailed by July 1st.

Complete application packets may be presented in person at the Health Occupations Admissions Office during regular hours of operation or submitted in the dropbox adjacent to the office door. Mailed application packets must be postmarked o later than an application filing deadline date.

NOTE: In the event that the last day of a filing period falls on a holiday or a Sunday when the campus is closed or when the post office does not postmark mail, complete application packets may be presented to the El Centro College Health Occupations Admissions Office *in person by 5:00 p.m. on the next regular business day.*

**To submit your application by mail,
address your envelope to:**

Patsy Strawther, Biotechnology
Health Occupations Admissions
El Centro College/Paramount
801 Main Street
Dallas, TX 75202-3604

**To submit your application in person,
bring your envelope to:**

Patsy Strawther, Biotechnology
Health Occupations Admissions Office Room P-101
Center for Allied Health & Nursing (Paramount Building)
301 North Market Street
Dallas, TX 75202

Late Application Guidelines

Should any space remain in the Fall class after the initial selection procedure outlined above is completed, **late applications received June 1 – July 15** will be ranked ordered in a separate list to fill the remaining spaces. Students selected from the late applicant pool will be notified of acceptance status via email by July 20th. Spaces remaining in the Fall class after this late application procedure is completed will be filled on a first-come, first-served basis up until the first class day of the Fall semester.

NOTE: Only applicants who are being offered a late space will be notified via email. If an individual is not accepted for a late space, the application materials will be returned to the applicant for future submission. It should not be assumed that late applications or the first-come, first-served application process will be necessary for every Fall Biotechnology class.

G. Selection Process

Applicants are selected for acceptance to the Biotechnology Program according to the following competitive ranking process:

1. Applicants are listed by grade point average (GPA) on the two prerequisite courses from highest (4.0) to lowest (2.5) to initially rank applicants. A minimum cumulative 2.5 GPA is required on the two prerequisite courses for application.
2. When two or more applicants have the same prerequisite GPA, the total credit hours of general education support courses are listed from highest number of credit hours (29) to lowest (0) to break the tie.
3. When two or more applicants have the same prerequisite GPA and the same total credit hours of general education support courses, the cumulative GPA on the general education support courses is listed from highest (4.0) to lowest (2.0) to break the tie.
4. When two or more applicants have the same prerequisite GPA, the same total credit hours of general education support courses, and the same cumulative GPA on the general education support courses, the date of attendance at the program information session is used to break the tie.

The table below illustrates the ranking process for a sample group of applicants:

EXAMPLE OF RANKING PROCESS

	GPA on 2 Prereq. Courses	Cr. Hrs. of Gen. Ed. Support Courses	GPA on Gen. Ed. Support Courses	Info. Session Attendance Date
Applicant #1	4.0	0	0.0	12/12/08
Applicant #2	3.5	12	2.75	07/14/09
Applicant #3	3.5	9	3.50	10/10/08
Applicant #4	3.0	15	3.79	02/16/09
Applicant #5	3.0	15	3.26	05/10/09
Applicant #6	3.0	15	3.26	06/16/09

If five spaces were available, applicants 1 through 5 would be accepted.

4. Applicants may improve their ranking by 1) repeating one or more of the two prerequisite courses to earn a higher prerequisite GPA (the last grade earned will be the grade of record), 2) completing additional general education support courses; or 3) repeating one or more general education support courses to earn a higher grade point average. NOTE: The decision to repeat a successfully completed course (any prerequisite or general education support course completed with a grade of “C” or higher) in order to improve an applicant’s competitiveness in the ranking process rests solely with the applicant.

Notification Letters

Using the point award ranking process, a ranked list is generated from those applications received during an official filing period and both acceptance and non-acceptance notification letters are mailed out.

A student who applies during an official filing period and who receives an acceptance letter is required to return a confirmation form within a specified timeframe to verify their intent to accept a space in the class. **Applications submitted during an official filing period are not “held over” to the next official filing period.**

Students who are not selected for admission the semester for which they apply or students who decline their acceptance for that semester must retrieve and resubmit their application packet by a specified date to reapply during the next application filing period.

CURRICULUM OVERVIEW – BIOTECHNOLOGY ASSOCIATE DEGREE

<u>PREREQUISITES</u>			<u>Lec</u>	<u>Lab</u>	<u>Ext</u>	<u>Cont</u>	<u>Cr</u>

			8	4	0	192	9
<u>SEMESTER VII – Summer</u>							
BITC	1491	Special Topics in Biological Tech./Technician	4	0	0	64	4
TOTAL PROGRAM HOURS =			58	40	0	1568	70

* Science courses must have been completed less than five years prior to program application. COSC 1300 must have been completed less than six (6) years prior to program application.

** MATH 1414 also accepted for MATH 1314.

+ Although SPCH 1311 is the preferred course, SPCH 1315 – Fundamentals of Public Speaking is also accepted.

++ Humanities elective may be chosen from the list on the official catalog for a general Associate Degree program.

Preferred courses are: ARTS 1301, DRAM 1310, HUMA 1315, MUSI 1306, PHIL 1301, ENGL 2000 or higher level literature, or select foreign language courses worth a minimum of 4 credit hours (i.e. SPAN 1411).

Support courses in Semesters I – V may be taken **before but not after** the semester indicated.

A minimum grade of “C” is required in all courses.

BITC 1491 – Special Topics in Biological Technology/Technician is the Capstone experiences for the Associate Degree in Biotechnology.

CURRICULUM OVERVIEW – BIOTECHNOLOGY LEVEL I CERTIFICATE

			<u>Lec</u> <u>Hrs</u>	<u>Lab</u> <u>Hrs</u>	<u>Ext</u> <u>Hrs</u>	<u>Cont</u> <u>Hrs</u>	<u>Cr</u> <u>Hrs</u>

			10	14	0	416	15
TOTAL PROGRAM HOURS =			21	23	0	736	29

* Science courses must have been completed less than five years prior to program application.

+ Elective must be chosen from the following: ENGL 1301, PSYC 2301, COSC 1300, MATH 1314, or MATH 1414.

Support courses in Semesters I – V may be taken **before but not after** the semester indicated.
A minimum grade of “C” is required in all courses.

BITC 2286 – Internship – Biological Technology/Technician is the Capstone experiences for the Certificate in Biotechnology.

EL CENTRO COLLEGE
MEDICAL LABORATORY TECHNICIAN / CLINICAL LABORATORY TECHNICIAN
BIOTECHNOLOGY
PROFESSIONAL RESPONSIBILITIES AND ESSENTIAL FUNCTIONS

The following list reflects the professional responsibilities as defined by the American Society of Clinical Laboratory Science, 2004 and essential functions as indicated by the Preamble Essentials of Accredited Education Programs for the Clinical Laboratory Technician/Medical Laboratory Technician, National Accrediting Agency for Clinical Laboratory Sciences, 1995. These standards also apply to the clinical area of Biotechnology.

I. Professional Responsibilities

1. Collect, process, and analyze biological and other substances.
2. Perform analytical tests of body fluids, cells and other substances.
3. Recognize factors that affect procedures and results and take appropriate actions within predetermined limits when corrections are indicated.
4. Perform and monitor quality control with predetermined limits.
5. Perform preventative and corrective maintenance of equipment and instruments or refer to appropriate sources for repairs.
6. Apply principles of safety.
7. Demonstrate professional conduct and interpersonal communication skills with patients, laboratory personnel, other health care professionals, and with the public.
8. Recognize the responsibilities of other laboratory and health care personnel and interact with them with respect for their job and patient care.
9. Apply basic scientific principles in learning new techniques and procedures.
10. Relate laboratory findings to common disease processes.
11. Establish and maintain continuing education as a function of growth and maintenance of professional competence.

II. Essential Functions

1. Communication effectively in written and spoken English.
2. Comprehend and respond to both formal and colloquial English, person-to-person, by telephone and/or in writing.
3. Appropriately assess nonverbal and verbal communication.
4. Move freely from one location to another in physical setting such as the clinical laboratory, patient care areas, corridors, and elevators.
5. Possess sufficient eye-motion coordination to allow delicate manipulations of specimens, instruments, and tool.
6. Grasp and release small objects (e.g., test tubes, pipette tips, microscope slides and cover slips); twist and turn dials/knobs (e.g., on microscopes, balances, centrifuges, spectrophotometers).

7. Manipulate other laboratory materials (e.g., reagents, manual and automated pipettes).
8. Identify and distinguish objects macroscopically and microscopically.
9. Read charts, graphs, and instrument scales/readout devices.
10. Lift and move objects of at least 20 pounds.
11. Possess a sense of touch and temperature discrimination.
12. Follow written and verbal directions.
13. Possess and apply mathematical skills.
14. Work under time constraints.
15. Prioritize requests and work concurrently on at least two different tasks.
16. Maintain alertness and concentration during a normal work period.
17. Apply knowledge, skills, and values learned from course work and life experiences to new situations.
18. Work safely with potential chemical, radiologic, and biologic hazards using universal precautions.
19. Show respect for self and others.
20. Project an image of professionalism including appearance, dress, and confidence.
21. Possess the psychological health required for full utilization of abilities.
22. Recognize emergency situations and take appropriate actions.

Adopted 2004

BIOTECHNOLOGY FACULTY

Kiran Kaur, Ph.D., Program Director

GENERAL INFORMATION

1. The Biotechnology program accepts 10* students for each fall class. Biotechnology (BITC) program courses are available during the daytime hours only.

* The El Centro College Health and Legal Studies Division reserves the right to make changes in program enrollment capacity.)

2. Biotechnology courses MUST be completed in the semester in which it is scheduled in the curriculum. In order to continue in the Biotechnology Program, each course must be completed with a grade of “C” or better during the semester in which it is scheduled.

NOTE: Support courses completed at colleges and universities outside the DCCCD must have a grade of “C” or better and be approved for transfer credit prior to the semester in which the course is required as stipulated in the curriculum outline.

3. Many of the prerequisite and support courses are offered online. Students without prior experience with Internet courses should take the Readiness for Education at a Distance Indicator (READI) test to see if they are a good candidate for online learning. Go to <http://ecc.readi.info> and log in as a New User. The current User Name is **elcentro** on the pull-down menu and the Password is **student**.

4. Individuals who were first-time college freshman students in Fall 2007 or after are subject to the guidelines of section 51.907 of the Texas Education Code which prohibits a student from dropping more than six (6) college level credit courses during their entire undergraduate career. For more information on the 6 Drop rule, see the official college catalog online at <https://www.1.dcccd.edu/6drop>.

5. Students enrolled at the El Centro campus in 6 credit hours or more during a fall or spring semester and 3 credit hours or more during a summer semester are entitled to a free DART train/bus pass for that semester. DART passes are available in the Accounting Office two weeks after the semester begins.

6. Students enrolling in this program who plan to transfer to a four-year institution should consult an advisor or counselor regarding transfer requirements and the transferability of these courses to the four-year institution of their choice.

7. Students who are accepted to the program and who do not possess a Social Security number are advised to contact the El Centro College International Center Office (Room CM-60, telephone 214-860-2090) concerning their eligibility to obtain a Social Security number before graduation from the program for future employment opportunities.

8. The Dallas County Community College District charges a higher tuition rate for courses in which a student registers for the third or more times. The “Third Attempt” policy includes courses taken at any of the Dallas County Community Colleges since the Fall 2002 semester. Developmental courses are not considered in this policy. For more information regarding the DCCCD “Third Attempt” policy, please visit the following website: <http://www.dcccd.edu/ThirdCourseAttempt>

9. A student may apply to more than one El Centro College Health Occupations program during a given filing period. However, if the student receives an acceptance letter to a specific program, confirms their intent to enter that program, and registers for program courses, their application to any other Health Occupations program that may share that filing period will be null and void.

Further, an individual accepted for admission and currently enrolled in an El Centro College Health Occupations program may not apply or be considered for admission selection for another El Centro College Health Occupations program unless their current program of study will complete before the second program curriculum begins. (Exception: An individual may apply to the Medical Laboratory Technology and Biotechnology programs in tandem to complete both degrees.)

10. Financial Aid

Students should apply for Financial Aid Office well in advance of program application. Information on filing and deadlines is found at: http://www.elcentrocollege.edu/Student_Services/FinancialAid. For a listing of area hospitals which offer financial assistance to students pursuing healthcare careers, please contact the Dallas/Fort Worth Hospital Council at 972-719-4900 to obtain their “scholarship booklet.” The Health/Legal Studies Office located in Room P-712 at 301 North Market Street also has information regarding scholarships and other financial assistance for health occupations students. Contact Suriya Sherriff-Edwards at 972-860-5095 for more information.

11. Please visit the website below for links to professional organizations and other information regarding the Biotechnology profession.

<http://www.elcentrocollege.edu/Programs/HealthLegalstudies/biotech/biotlinks.htm>

12. Please contact the individuals below for assistance (physical addresses):
