

# Student and Employee Rights and Responsibilities

## 2019-20

Dallas County  
Community College District

## Included in this notice is important info you should know about:

- The Drug Free Schools and Communities Act
- Bacterial Meningitis and the state law requiring vaccinations
- DCCCD's Student Code of Conduct Notice on Hazing
- Title IX and Campus Sexual Assault
- Student Rights Under the Family Educational Rights & Privacy Act (FERPA)

## Drug Free Schools and Communities Act Notice 2019-20

The colleges of the Dallas County Community College District ("DCCCD"), including Brookhaven, Cedar Valley, Eastfield, El Centro, Mountain View, North Lake and Richland, and its administrative facilities, are committed to creating an educational and work environment free from use or distribution of illicit drugs and abuse of alcohol. As such, and in accordance with its obligations under the Drug-Free Schools and Communities Act of Amendments of 1989, the College District prohibits the unlawful use, possession, distribution, manufacture, possession for purposes of distribution, or sale of illicit drugs or alcohol on DCCCD property or premises or at DCCCD-sponsored activities, except as authorized by the Chancellor with respect to a specific event, instructional program or activity.

## Sanctions

### College District Disciplinary Sanctions

All students and employees are expected to comply with the DCCCD's drug and alcohol policy. Any student or employee who commits a violation of the DCCCD's drug and alcohol policy shall be subject to all applicable legal sanctions under local, state, or federal law, as well as all applicable College Disciplinary sanctions up to and including academic suspension or expulsion or termination of employment. DCCCD disciplinary proceedings will occur in accordance with the procedures outlined in the DCCCD Board Policy Manual. Violations of the DCCCD drug and alcohol policy that are also violations of federal, state, or local law may be referred to the appropriate agency. In such situations, cases may proceed concurrently through the DCCCD disciplinary process and in the criminal justice system.

### Federal, State and Local Penalties and Sanctions

Local, state and federal laws prohibit the unlawful use, distribution, manufacture, possession for purposes of distribution, and sale of alcohol and controlled substances. These laws carry penalties for violations, including, but not limited to, fines, imprisonment, forfeiture of property and denial of federal benefits such as student loans, grants, etc. See also Title 21, United States Code (USC), Controlled Substances Act; and Chapter 481, Texas Health and Safety Code, the Texas Controlled Substances Act. Additionally, the different municipalities within Dallas County have ordinances relating to the use of controlled substances, for which penalties may be imposed. All applicable legal sanctions under local, state or federal law for the unlawful

Beverages Offenses](#)

## DCCCD Drug and Alcohol Prevention Efforts

possession or distribution of illicit drugs or alcohol will be applied.

College District staff, students, health center professionals, college police and counselors are working together to eliminate drug and alcohol abuse both on and off campus. Activities and opportunities vary by college, but all are united to ensure College District students and staff are aware of the problems and dangers of drug and alcohol abuse. Information and confidential referrals concerning counseling and treatment programs for drug and alcohol abuse may be obtained from any College District Counseling and/or Advisement Center, Health Center and/or location Human Resources Office.

## Listed below are some of the College District's efforts and programs available to College District students and employees:

### Red Ribbon Campaigns

In conjunction with Texas War on Drugs Week and National Red Ribbon Day, some of the colleges of DCCCD have a Red Ribbon Day in the month of October. Students who are committed to living drug-free wear red ribbons on that day. Throughout the academic year, various student activities are offered by the colleges to promote a drug-free lifestyle.

### Peer Counseling Education

If you have a problem with drugs or alcohol, one of your classmates is available to talk with you and provide the information and counseling you need or to refer you to resources to deal with your specific situation.

### Recover Network Groups/Alcoholics Anonymous/12-Step Programs

Some of the colleges of DCCCD have 12-step or other recovery programs to help individuals overcome chemical or alcohol dependency. You can get information about these programs through your college Health Center or counseling offices.

### Alcohol-Free Happy Hour

College offices of Student Life present various alcohol-free activities as alternatives to the kind of social events that are built around alcohol and/or drug use. Drop by your college office of Student Life for information about the many student activities and intramural sports programs for both day and evening students.

*IF YOU WANT TO BE A PART OF ANY OF THESE OR OTHER PROGRAMS PROMOTING A DRUG-FREE LIFESTYLE OR IF YOU NEED COUNSELING, VISIT WITH YOUR COLLEGE COUNSELOR, OFFICE OF STUDENT LIFE OR HEALTH CENTER FOR MORE INFORMATION.*

## Health Risks

### Alcohol Effects

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive an automobile safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses may cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the liver or the brain.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disability. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

**Alcohol consumption causes a number of marked changes in behavior.**

## Drug Effects

The use of drugs is harmful to one's physical, mental, and social well-being. Drugs can be categorized into five major categories or schedules. Those categories are listed below and include the risks and federal trafficking penalties associated with each.

### Drug Schedules

Drugs, substances, and certain chemicals used to make drugs are classified into five (5) distinct categories or schedules depending upon the drug's acceptable medical use and the drug's abuse or dependency potential. The abuse rate is a determinate factor in the scheduling of the drug; for example, Schedule I drugs have a high potential for abuse and the potential to create severe psychological and/or physical dependence. As the drug schedule changes-- Schedule II, Schedule III, etc., so does the abuse potential-- Schedule V drugs represent the least potential for abuse. A listing of drugs and their corresponding schedules is located at Controlled Substance Act (CSA) Scheduling or CSA Scheduling by Alphabetical Order. These lists describe the basic or parent chemical and do not necessarily describe the salts, isomers and salts of isomers, esters, ethers and derivatives which may also be classified as controlled substances. These lists are intended as general references and are not comprehensive listings of all controlled substances.

Please note that a substance need not be listed as a controlled substance to be treated as a Schedule I substance for criminal prosecution. A controlled substance analogue is a substance which is intended for human consumption and is structurally or pharmacologically substantially similar to or is represented as being similar to a Schedule I or Schedule II substance and is not an approved medication in the United States. (See 21 U.S.C. §802(32)(A) for the definition of a controlled substance analogue and 21 U.S.C. §813 for the applicable schedule.)

#### Schedule I

Schedule I drugs, substances, or chemicals are defined as drugs with no currently accepted medical use and a high potential for abuse. *Some examples of Schedule I drugs are: heroin, lysergic acid diethylamide (LSD), marijuana (cannabis), 3,4-methylenedioxymethamphetamine (ecstasy), methaqualone, and peyote.*

#### Schedule II

Schedule II drugs, substances, or chemicals are defined as drugs with a high potential for abuse, with use potentially leading to severe psychological or physical dependence. These drugs are also considered dangerous. *Some examples of Schedule II drugs are: Combination products with less than 15 milligrams of hydrocodone per dosage unit (Vicodin), cocaine, methamphetamine, methadone, hydromorphone (Dilaudid), meperidine (Demerol), oxycodone (OxyContin), fentanyl, Dexedrine, Adderall, and Ritalin.*

#### Schedule III

Schedule III drugs, substances, or chemicals are defined as drugs with a moderate to low potential for physical and psychological dependence. Schedule III drugs abuse potential is less than Schedule I and Schedule II drugs but more than Schedule IV. *Some examples of Schedule III drugs are: Products containing less than 90 milligrams of codeine per dosage unit (Tylenol with codeine), ketamine, anabolic steroids, testosterone.*

#### Schedule IV

Schedule IV drugs, substances, or chemicals are defined as drugs with a low potential for abuse and low risk of dependence. *Some examples of Schedule IV drugs are: Xanax, Soma, Darvon, Darvocet, Valium, Ativan, Talwin, Ambien, Tramadol.*

#### Schedule V

Schedule V drugs, substances, or chemicals are defined as drugs with lower potential for abuse than Schedule IV and consist of preparations containing limited quantities of certain narcotics. Schedule V drugs are generally used for antidiarrheal, antitussive, and analgesic purposes. *Some examples of Schedule V drugs are: cough preparations with less than 200 milligrams of codeine or per 100 milliliters (Robitussin AC), Lomotil, Motofen, Lyrica, Parepectolin.*

*An updated and complete list of the schedules is published annually in Title 21 Code of Federal Regulations (C.F.R.) §§ 1308.11 through 1308.15.*

DRUG/SCHEDULE	QUANTITY	PENALTIES	QUANTITY	PENALTIES
Cocaine (Schedule II)	500–4999 grams mixture	<b>First Offense:</b> Not less than 5 yrs, and not more than 40 yrs. If death or serious injury, not less than 20 or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual.  <b>Second Offense:</b> Not less than 10 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual.	5 kgs or more mixture	<b>First Offense:</b> Not less than 10 yrs, and not more than life. If death or serious injury, not less than 20 or more than life. Fine of not more than \$10 million if an individual, \$50 million if not an individual.  <b>Second Offense:</b> Not less than 20 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual.  <b>2 or More Prior Offenses:</b> Life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual.
Cocaine Base (Schedule II)	28–279 grams mixture		280 grams or more mixture	
Fentanyl (Schedule II)	40–399 grams mixture		400 grams or more mixture	
Fentanyl Analogue (Schedule I)	10–99 grams mixture		100 grams or more mixture	
Heroin (Schedule I)	100–999 grams mixture		1 kg or more mixture	
LSD (Schedule I)	1–9 grams mixture		10 grams or more mixture	
Methamphetamine (Schedule II)	5–49 grams pure or 50–499 grams mixture		50 grams or more pure or 500 grams or more mixture	
PCP (Schedule II)	10–99 grams pure or 100–999 grams mixture		100 gm or more pure or 1 kg or more mixture	

PENALTIES				
Other Schedule I & II drugs (and any drug product containing Gamma Hydroxybutyric Acid)	Any amount	<b>First Offense:</b> Not more than 20 yrs. If death or serious injury, not less than 20 yrs, or more than life. Fine \$1 million if an individual, \$5 million if not an individual.  <b>Second Offense:</b> Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if not an individual.		
Flunitrazepam (Schedule IV)	1 gram			
Other Schedule III drugs	Any amount	<b>First Offense:</b> Not more than 10 years. If death or serious injury, not more than 15 yrs. Fine not more than \$500,000 if an individual, \$2.5 million if not an individual.  <b>Second Offense:</b> Not more than 20 yrs. If death or serious injury, not more than 30 yrs. Fine not more than \$1 million if an individual, \$5 million if not an individual.		
All other Schedule IV drugs	Any amount			
Flunitrazepam (Schedule IV)	Other than 1 gram or more	<b>First Offense:</b> Not more than 5 yrs. Fine not more than \$250,000 if an individual, \$1 million if not an individual.  <b>Second Offense:</b> Not more than 10 yrs. Fine not more than \$500,000 if an individual, \$2 million if other than an individual.		
All Schedule V drugs	Any amount			
		<b>First Offense:</b> Not more than 1 yr. Fine not more than \$100,000 if an individual, \$250,000 if not an individual.  <b>Second Offense:</b> Not more than 4 yrs. Fine not more than \$200,000 if an individual, \$500,000 if not an individual.		

<b>FEDERAL TRAFFICKING PENALTIES—MARIJUANA</b>			
<b>DRUG</b>	<b>QUANTITY</b>	<b>1st OFFENSE</b>	<b>2nd OFFENSE *</b>
Marijuana (Schedule I)	1,000 kg or more marijuana mixture; or 1,000 or more marijuana plants	Not less than 10 yrs. or more than life. If death or serious bodily injury, not less than 20 yrs., or more than life. Fine not more than \$10 million if an individual, \$50 million if other than an individual.	Not less than 20 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual.
Marijuana (Schedule I)	100 kg to 999 kg marijuana mixture; or 100 to 999 marijuana plants	Not less than 5 yrs. or more than 40 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine not more than \$5 million if an individual, \$25 million if other than an individual.	Not less than 10 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual.
Marijuana (Schedule I)	More than 10 kgs hashish; 50 to 99 kg marijuana mixture  More than 1 kg of hashish oil; 50 to 99 marijuana plants	Not more than 20 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine \$1 million if an individual, \$5 million if other than an individual.	Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if other than an individual.
Marijuana (Schedule I)	Less than 50 kilograms marijuana (but does not include 50 or more marijuana plants regardless of weight) 1 to 49 marijuana plants;	Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual.	Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual.
Hashish (Schedule I)	10 kg or less		
Hashish Oil (Schedule I)	1 kg or less		
*The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is a mandatory term of life imprisonment without release and a fine up to \$20 million if an individual and \$75 million if other than an individual.			

Controlled Substances – Uses and Effects									
DRUG SCHEDULES	TRADE OR OTHER NAMES	MEDICAL USES	DEPENDENCE Physical Psychological	TOLERANCE	DURATION (Hours)	USUAL METHODS OF ADMINISTRATION	POSSIBLE EFFECTS	EFFECTS OF OVERDOSE	WITHDRAWAL SYNDROME
<b>NARCOTICS</b>									
Opium II III V	Dover's Powder, Paregoric, Peppermint	Analgic, Antidiarrheal	High	Yes	3-6	Oral, smoked	Euphoria, drowsiness, respiratory depression, constricted pupils, nausea	Slow and shallow breathing, clammy skin, convulsions, coma, possible death	Watery eyes, runny nose, yawning, loss of appetite, irritability, tremors, panic, cramps, nausea, chills, and sweating
Morphine II III	Morphine, MS-Cotin, Roxanol, Roxanol-SR	Analgic, Antitussive	High	Yes	3-6	Oral, smoked, injected			
Codine	Tylenol w/Codine, Empirin w/Codine, Roblussen A-C, Fiorinal w/Codine	Analgic, Antitussive	Moderate	Yes	3-6	Oral, injected			
Heroin I	Diackymorphine, Horse Snack	None	High	Yes	3-6	Injected, snuffed, smoked			
Hydromorphone II	Dilaudid	Analgic	High	Yes	3-6	Oral, injected			
Meprobidine (Pethidine) II	Demerol, Mepergan	Analgic	High	Yes	3-6	Oral, injected			
Methadone II	Dolophine, Methadone, Methadose	Analgic	High	Yes	12-24	Oral, injected			
Other Narcotics I III IV V	Numorphan, Percodan, Percocet, Tylox, Tussonex, Fentanyl, Darvon, Lembit, Talwin	Analgic, antidiarrheal, antitussive	High-Low	Yes	Variable	Oral, injected			
<b>DEPRESSANTS</b>									
Chloral Hydrate IV	Nectec	Hypnotic	Moderate	Yes	5-8	Oral	Slurred speech, disorientation, drunken behavior without odor of alcohol	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Anxiety, insomnia, tremors, delirium, convulsions, possible death
Barbiturates II III IV	Amytal, Buftal, Flarinal, Lotosate, Nembutal, Seconal, Talnal, Phenobarbital	Anesthetic, anticonvulsant, sedative, hypnotic, veterinary euthanasic agent	High-Mod. Mod.	Yes	1-16	Oral			
Benzodiazepines IV	Alivan, Dalmane, Diazepam, Librium, Xanax, Serax, Valium, Tranxene, Versed, Valium, Halcion, Prolopan, Restoril	Antianxiety, anticonvulsant, sedative, hypnotic	Low	Yes	4-8	Oral			
Methaqualone I	Quaalude	Sedative, hypnotic	High	Yes	4-8	Oral			
Clonazepam III	Doanin	Sedative, hypnotic	High	Yes	4-8	Oral			
Other Depressants III IV	Equanil, Miltown, Noludis, Prochloral, Valmid	Antianxiety, sedative, hypnotic	Moderate	Yes	4-8	Oral			

## Controlled Substances - Uses and Effects

DRUGS CSA SCHEDULES	TRADE OR OTHER NAMES	MEDICAL USES	DEPENDENCE Physical Psychological	TOLER- ANCE	DURAT ION (Hours)	USUAL METHODS OF ADMINIS- TRATION	POSSIBLE EFFECTS	EFFECTS OF OVERDOSE	WITHDRAWAL SYNDROME
<b>STIMULANTS</b>									
Cocaine <sup>1</sup> II	Coke, Flake, Snow, Crack	Local anesthetic	Possible	Yes	1-2	Sniffed, smoked, injected	Increased alertness, excitation, euphoria, increased pulse rate and blood pressure, insomnia, loss of appetite	Agitation, increase in body temperature, hallucinations, convulsions, possible death	Apathy, long periods of sleep, irritability, depression, disorientation
Amphetamines II	Ephedrine, Dextroamphetamine, Dexedrine, Clobet	Attention deficit disorders, narcolepsy, weight control	Possible	Yes	2-4	Oral, injected			
Phenmetrazine II	Preludin	Weight control	Possible	Yes	2-4	Oral, injected			
Methylphenidate II	Ritalin	Attention deficit disorders, narcolepsy	Possible	Yes	2-4	Oral, injected

<b>CANNABIS</b>									
Marijuana I	Pot, Acepulco Gold, Grass, Reefer, Sinsemilla, Thai Sticks	None	Unknown	Moderate	2-4	Smoked, oral	Euphoria, relaxed inhibitions, increased appetite, disoriented behavior	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity, and decreased appetite occasionally reported
Tetrahydrocannabinol III	THC, Mariol	Cancer chemotherapy, anti-nauseant	Unknown	Moderate	2-4	Smoked, oral			
Hashish I	Hash	None	Unknown	Moderate	2-4	Smoked, oral			
Hashish Oil I	Hash Oil	None	Unknown	Moderate	2-4	Smoked, oral			

<sup>1</sup> Designated a narcotic under the GSA.

<sup>e</sup> Not designated a narcotic under the GSA.

## Bacterial Meningitis Notice 2019-20

### Important Information You Need to Know about Bacterial Meningitis

The following information is being provided to all new college students in the State of Texas. Bacterial Meningitis is a serious and potentially deadly disease that can progress extremely fast – so take utmost caution. It is an inflammation of the membranes that surround the brain and spinal cord. The bacteria that cause meningitis can also infect the blood. This disease strikes about 3,000 Americans each year, including 100-125 on college campuses, leading to 5-15 deaths among college students every year. There is a treatment, but those who survive may develop severe health problems or disabilities.

**Symptoms include:** high fever, severe headache, vomiting, sensitivity to light, stiff neck, confusion and sleepiness, nausea, lethargy and seizures. There may be a rash of tiny, red-purple spots caused by bleeding under the skin. These can occur anywhere on the body. The more symptoms, the higher the risk, so when these symptoms appear, seek immediate medical attention.

### How is Bacterial Meningitis diagnosed?

Diagnosis is made by a medical provider and is usually based on a combination of clinical symptoms and laboratory results from spinal fluid and blood tests. Early diagnosis and treatment can greatly improve the likelihood of recovery.

### How is the disease transmitted?

The disease is transmitted when people exchange saliva (such as by deep-throat kissing, sharing drinking containers, utensils, cigarettes, toothbrushes, etc.) or come in contact with bacteria-infected respiratory or throat secretions.

### How do you increase your risk of getting Bacterial Meningitis?

Exposure to saliva by sharing cigarettes, water bottles, eating utensils, food, kissing, etc., as well as living in close conditions (such as sharing a room/suite in addorm or group home) increases your risks of contracting the disease.

### What are the possible consequences of the disease?

- Death (in 8 to 24 hours from perfectly well to dead)
- Permanent brain damage
- Kidney failure
- hearing disability
- Hearing loss, blindness
- Limb damage (fingers, toes, arms, legs) that requires amputation
- Gangrene
- Coma
- Convulsions

### Can the disease be treated?

Antibiotic treatment, if received early, can save lives and chances of recovery are increased. However, permanent disability or death can still occur.

## Attention Students: Proof of Meningitis Vaccination Required

**What:** State of Texas immunization requirement for bacterial meningitis

**When:** Effective spring 2014 semester and all semesters thereafter

**Who:** Students (21 years of age or younger) must provide the college with proof of meningitis vaccination if the student is:

- Enrolling for the first time as a credit student
- Returning after a semester break in enrollment
- Transferring to a DCCCD college from another college or university
- A new or returning continuing education student enrolled in programs with 360 contact hours or more
- A distance education student who lives in Texas (based on your actual mailing address – post office boxes cannot be used as proof of residency)
- A Dual Credit, Middle College, Early College or Charter High School student attending classes at a college of DCCCD
- A continuing education student who is enrolled in concurrent credit courses

**Deadline:** You must submit proof of vaccination (or booster shot within the last five years) to your college's Admissions Office before registering for class. The date of the vaccination must be at least 10 days before the first day of class. This allows time for the vaccination to take effect.

**Where:** Take proof of bacterial meningitis vaccination to the Admissions Office at the college where you are enrolled.

**Exceptions to the new law:** A student does not need to provide proof of meningitis vaccination if the student meets any of the following criteria:

- The student is 22 years of age or older (by the first day of the semester in which the student is enrolled).
- The student is only enrolled in distance education courses and lives outside of the State of Texas or outside of the United States.
- The student is enrolled in a continuing education course or program that is less than 360 contact hours or in continuing education corporate training.
- The student is enrolled in one or more Dual Credit courses taught at a public or private K-12 facility which is not located on a DCCCD campus.
- The student is receiving education from the DCCCD but is incarcerated in a Texas prison.

**Exemptions:** A student at a DCCCD college or the student's parents/guardians are not required to submit evidence of the bacterial meningitis vaccination if the student, parent or guardian submits one of the following affidavits, based on health and well-being or for reasons of conscience, including religious beliefs. For either of these exemptions, a student must submit to the appropriate College Admissions Office:

- An affidavit or certificate signed by a physician who is duly registered and licensed to practice medicine in the United States in which it is stated, in the doctor's opinion, that the vaccination would injure the health and well-being of the student; or
- An affidavit signed by the student stating that she or he declines to take the vaccination for bacterial meningitis for reasons of conscience, including religious belief. In lieu of the affidavit the student may apply for an exemption from the vaccination requirement for reasons of conscience by completing the online form located at the following website.

<http://www.dshs.state.tx.us/immunize/school/publications.aspx>

Students may obtain bacterial meningitis vaccinations from their own physicians, local health departments, clinics, area pharmacies and similar facilities.

**For more information about bacterial meningitis, visit the Centers for Disease Control at  
[www.cdc.gov/meningitis](http://www.cdc.gov/meningitis)**

**For details about DCCCD's procedures, visit the Admissions office at any of the district's seven colleges.**

**Learn more about the State of Texas' Meningitis Vaccine Requirements at  
[www.dcccd.edu/Meningitis](http://www.dcccd.edu/Meningitis)**

## Bacterial Meningitis Vaccinations

Vaccinations are available and should be considered for people living in close quarters and college students 21 years of age or younger. Vaccinations are effective against four of the five most common bacterial types that cause 70 percent of the disease in the U.S. (The vaccination does not protect against all types of meningitis). Vaccinations take seven to 10 days to become effective, with protection lasting three to five years. The cost of vaccine varies, so check with your health care provider. The bacterial meningitis vaccination is very safe. The most common side effects are redness and minor pain at injection site which may last up to two days.

**For more information, contact your health care provider.**

**Contact your Student Health Center at:**

Brookhaven: 972-860-4195

Cedar Valley: 972-860-8277

Eastfield: 972-860-7190

El Centro: 214-860-2113

Mountain View: 214-860-8713

North Lake: 972-273-3170

Richland: 972-238-6135

## Student Code of Conduct Notice

**All students are charged with knowing the contents and provisions of DCCCD's policies, procedures, and regulations concerning student conduct. Complete details can be found at [www.dcccd.edu/GSCH](http://www.dcccd.edu/GSCH).**

### Hazing

#### Summary of Chapter 37, Subchapter F of the Texas Education Code

The Texas Education Code defines hazing as any intentional, knowing, or reckless act, occurring on or off the campus of an educational institution, by one person alone or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in an organization. For more information on what qualifies as hazing, please see Texas Education Code, Section 37.151(6),

State law prohibits hazing by any person or organization and provides punishment by fines and/or imprisonment, as appropriate. Engaging in an act of hazing is also a violation of the DCCCD Student Code of Conduct [FLB (LOCAL)] and is subject to disciplinary action as outlined therein.

A person's consent to hazing, express or implied, is not a defense to criminal prosecution or disciplinary action under the DCCCD Student Code of Conduct.

A person may commit the offense of hazing either directly or indirectly. Indirect acts include recklessly permitting hazing to occur or failure to report firsthand knowledge of planned or past hazing.

### Title IX and Campus Sexual Assault

In accordance with Title IX of the Education Amendments of 1972 and Section 51.9363 of the Texas Education Code, the DCCCD prohibits sexual misconduct, including sexual assault, in all of its programs and activities, including in its dual credit, early college high school, and charter high school programs. Sexual Misconduct is defined as any act of sex/gender-based discrimination or harassment, sexual harassment, sexual violence, sexual exploitation, relationship violence, sex/gender-based stalking, and any other conduct that threatens the health and safety of any person on the basis of actual, expressed or perceived gender identity.

The DCCCD's sexual misconduct policy applies to any instance in which a student or employee is alleged to have engaged in sexual misconduct against any person or believes he or she has been subjected to sexual misconduct, regardless of sex, gender, sexual orientation, or gender identity. The DCCCD will respond to any complaint of sexual misconduct, including conduct alleged to have occurred during breaks, leaves of absence or periods of dismissal, whether on or off DCCCD property or premises.

## Students Rights Under FERPA: A Family Educational Rights and Privacy Act

A person who is found to have violated the DCCCD sexual misconduct policy shall be subject to all applicable disciplinary sanctions as outlined in the DCCCD Board Policy Manual. Violations of the sexual misconduct policy that are also violations of law may also be subject to sanctions by civil and criminal authorities. DCCCD disciplinary action with respect to any act of sexual misconduct on the part of a student or employee shall proceed during the pendency of civil and/or criminal proceedings and shall not be subject to challenge on the ground that civil and/or criminal charges involving the same incident have been filed, dismissed or reduced. For more information on the DCCCD's sexual misconduct policy, including reporting procedures, please see the DCCCD Board Policy Manual [DIAA (LOCAL), FFDA (LOCAL), and DIA (REGULATION)].

[www.dcccd.edu/FERPA](http://www.dcccd.edu/FERPA)

### FERPA affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes is inaccurate. Students may ask the College to amend a record that they believe is inaccurate. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of a right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to provide written consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including campus law enforcement personnel and health staff); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing a task. A school official also may include a volunteer, a person, or entity outside of the DCCCD with whom the DCCCD has contracted to perform an institutional service or function for which the DCCCD would otherwise use its own employees and who is under the direct control of the DCCCD with respect to the use and maintenance of personally identifiable information from education records, such as an attorney, auditor, or collection agent. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill the official's professional responsibility
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA:

Family Policy Compliance Office  
U .S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202

- |   |   |

| f. field of study;                                    | tech-prep, or continuing education; or                    |
| g. participation in officially-recognized activities; | n. name of the most recent previous institution attended. |
| h. weight and height of members of athletic teams;    |   |
5. Certain information, known as directory information, may be released without the student's consent. Directory information includes:

Students may request that all or any part of the directory information be withheld from the public by giving written notice to the Registrar's Office during the first 12 class days of a fall or spring semester or the first four class days of a summer session. Students may protect their directory information at any time during the academic year if they are unable to provide written notice within these time frames.

The Family Educational Rights and Privacy Act (FERPA)  
is the law that protects student records.

The following college offices maintain student records:
